PROFILE INFO

I'm Muhammad Muzammil Safdar, an Experienced front-end developer, and highly skilled in creating dynamic and interactive user interfaces, as well as optimizing website performance and user experience. Passionate about staying up to date with the latest technologies and trends in front-end development.

- Developed and maintained responsive web applications using React, Next.js, and Tailwind CSS
- Optimized website performance and user experience through code optimization, caching, and lazy loading techniques
- Collaborated with the design team to implement pixel-perfect designs and ensure consistency across all pages
- Used Git for version control and collaborated with team members using pull requests and code reviews

I can develop:
- Landing page
- Blog website
- Portfolio website
- Business Website etc.
